Re: In the Matter of Proposed Changes in the Commission's Rules Regarding
Human Exposure to Radiofrequency Electromagnetic Fields; ET Docket 03-137

To the Commission:

Novatel Wireless, Inc. hereby submits comments in response to the Commission's Notice of Proposed Rule Making in the above-captioned matter.

Novatel Wireless is a global corporation engaged in the design and development of wireless modems, software and custom engineering solutions for use in mobile computing devices, with a product portfolio that includes wireless PC Cards and embedded modules. It is in the interest of our industry and our individual company to ensure public safety with products that involve RF exposure and to establish safe usage of RF products. As such, we welcome the opportunity to provide comment on these matters that are critical to the information technology sector.

In reviewing the proposed changes, we endorse the proposal by QUALCOMM, INC. to provide for an expedited and streamlined approach to licensed module approvals. We believe this proposal continues to provide maximum safety at the same time as providing quality and cost-effective products to the public.

Very truly yours,

Peter Leparulo
Chief Executive Officer
Novatel Wireless, Inc.
